## The Henley

The Henley barrel vault twin hoop, trellis arch design is one of the most popular in our range of canopies. In Primary School outdoor play canopies, the trellis arches are used to hang sensory and tactile artwork and other decorative or informative items.

### Available Shapes

#### Barrel

Brings the eaves down on either side creating greater protection in open areas.

#### Lean-to

Generally used where the canopy is up against a building, removing any problems with inaccessible gutters.

#### Wave Form

A variation on the Lean-to the wave form adds visual interest. Available only in polycarbonate cladding options.

#### Cantilever

Great for walkways or against buildings where a second run of columns is not possible.

#### Gull Wing

Central column run with the addition of a valley gutter

### Specifications

#### Warranties

Framework - 25 years

Polycarbonate Cladding - 10 years against discolouration through sunlight.

#### Sizes

The maximum width for the Ascot is around 6m but each canopy as fabricated to suit the clients requirements.

#### Cladding Options

Flame Retardant (Class 1) Structured Opal (opaque) Polycarbonate with a 10 year guarantee against discolouration from sunlight. The polycarbonate is fixed into a two part Aluminium Glazing Bar with rubber gaskets to allow for thermal expansion of the roofing sheets and secure fixing.

Waterproof, Flame retardant, coated fabric with a 10 year guarantee against premature degradation. Available in a number of standard colours. The fabric roof cladding sheets are tensioned into and retained by our own aluminium cladding retention rail system.

#### Standard Finish

Shot blast, zinc sprayed and polyester powder coated to any standard RAL or BS colour.

#### Rainwater Goods

Colour coded Aluminium gutters included as standard to all eaves sides, with down pipes terminating at ground level.
